

**Projects consulted on after Recovery Implementation Program Initiation (January 1988) which are eligible to participate in the Yampa Programmatic Biological Opinion.**

Updated through 6/30/06.

Every 5 years, beginning in water-year 2010, the States of Colorado and Wyoming will report to the Program estimated average annual volumes of depletions from the Yampa and Little Snake rivers and their tributaries.

The Yampa River Programmatic Biological Opinion covers up to 167,854 AF of historic depletions whose project proponents (for projects greater than 100 AF/year) sign a recovery agreement. Most historic projects have never been consulted on. The Yampa PBO includes 53,532 AF of new depletions.

\* An asterisk in the "Federal Agency" column denotes a consultation added or the information modified in the last 2 quarters.

Footnotes: 2 - Historic depletion; 4 - Depletion charge to be determined on a project-specific basis; 5 - Consultation period extended; 7 - Consultation under Section 7 Agreement.

Avg. Annual Depletion (af) Cited in Individual Project Opinion (NOT a depletion accounting)

										(RCY & depletion accounting)
